

What is a POS (Point of Sale)?

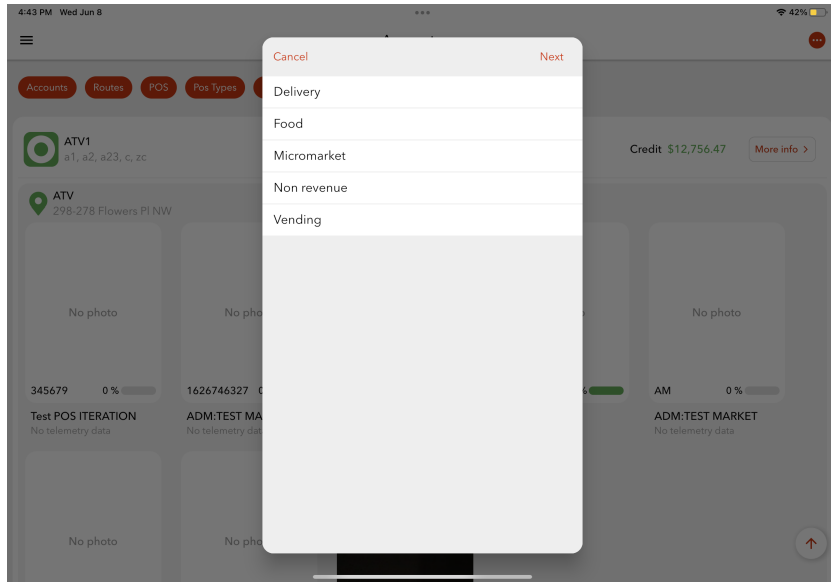

A POS is the location where the transaction for each of your products happens. With Gimme, all of your sales-related information is linked to a POS.

A POS in Gimme VMS is the form of a number. Ex: 00110

You can also choose from several POS filters including:

- Delivery
- Food
- Micromarket
- Non revenue
- Vending

Examples of a POS include:

- Front Office Delivery
- Outside Coin charger
- Coffee Machine
- Snack Right
