

How to replace a product in Gimme Field

In Gimme Field:

1. On the **Schedule** page, click on a **POS**
2. Toggle to the **Planogram**
3. Select the product you would like to replace
4. Click **Replace** below the product image
5. Select the new product either by using the **search bar** or scanning using the **barcode scanner** (To make the product replacement permanent, click on the toggle so that it shows red before selecting the new product)
