

Setting up round amount picks and how rounding works in Gimme VMS

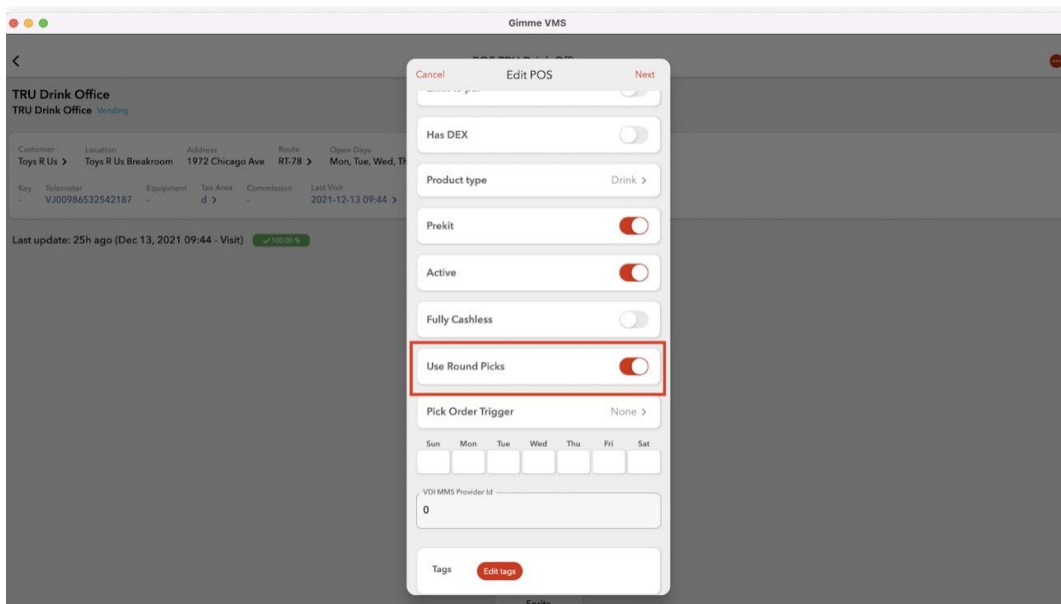

1. Click **Product Families**
2. Select a product family
3. Toggle on **Round Amount**
4. Enter in a rounded value
5. Click **Done** to save

[Video: How to turn on rounding for picking]

Next:

From the Accounts page:

1. Click on **POS**
2. Search for the POS using the POS code, telemeter number, or VEQ number
3. Select the POS
4. Click on the red three-dot menu in the top right of the screen
5. Select **Edit POS**
6. Click the toggle switch next to **Use Round Picks** (it will turn to red)
7. Select **Next** to save

You can check if the rounding for picking is done correctly by viewing the **Pick Order Item Log** (click the link to view where to find the pick order item log)

- Rounding Math
 - pick amount - (pick amount/round amount)
 - eg: 23 - (23/12) = 21.08
 - The rounded amount will not exceed the pick amount of 23, so the amount will round down to 12 and not up to 24.
