## How should I set up Barcode Type from the Settings page?

This setting determines what set of data is used when a user in Gimme Field scans the barcode at a POS.

- Select the **three-line menu button** in the top left corner, and choose the **Settings** page at the bottom.
- On the side list, select **Barcode Type**
- Choose either POS or Equipment
  - $\circ~$  If the barcode at the POS corresponds with the POS code, select POS
  - If the barcode at the POS corresponds with the Equipment VEQ, select Equipment
- Select Save
