

Edit POS Number

Editing the POS number allows you to customize the number associated with a machine in the Gimme system. This identifying number is different from the VEQ number and machine serial number.

1. From the **Operations** page, click/tap on the **three-line menu button** to select **Accounts**
2. From the **Accounts** page, click/tap on the **red POS button** to search for the POS
3. Click/Tap on the POS's image to open the individual POS's page
 - a. At the top of the screen, you will see **POS (number of POS)**
 - b. Click/Tap on the **red circle with three dots** and select **Edit POS**
 - c. Under POS Code remove the original number, replace it with the desired number, then click/tap **Next**
